Education

Zhuhai, China **Beijing Normal University – Hong Kong Baptist University (BNBU)**, BSc in Computer Science and Technology
Sept 2023 – Present

GPA: 3.25/4.00. Available from June 8, 2026 for around 3 months.

- Relevant coursework: Data Structures, Algorithms, Operating Systems, DBMS, Machine Learning, Neural Networks & Deep Learning, Software Engineering, Advanced Software Development Workshop, Discrete Structures, Deep Learning for Computer Vision, 3D Computer Vision.

Publications and Submissions

May 2026 **Decoupling Morphology and Coherence for High-Fidelity 4D Cardiac Segmentation**

Ruijie Huang, Weifeng Su, Yuxiang He, Zhengyang Wang, Xingyu Chen

openreview.net/forum?id=Nw0WiydFA (NeurIPS 2026 Conference Submission; under review on OpenReview)

Contributed to 4D cardiac segmentation experiments, method visualization, technical figures, and report materials.

May 2026 **Orchestrating Secrets: Visual Metaphor Generation and Reasoning in Multi-Agent Communication Games**

Zhengyang Wang, Collaborators

(Submitted to ARR, May 2026)

Built MetaVision data assets and review workflow for multimodal metaphor reasoning and communication games.

Research Projects

Jan 2026 **MetaVision / Visual Metaphor Reasoning**

Multimodal metaphor generation and reasoning in multi-agent communication games.

- Built a 300 pairs / 600 images dataset with staged review, provenance logging, image generation/review, and quality-control workflow.
- Contributed to communication-game framework design and multimodal evaluation materials for ARR submission.

BNBU Digital Sports **Archery Sports Data and Intelligent Arrow Selection**

Research Center Sports-science experiment, data analysis, and computer-vision support.

2025 – Present • Supported mechanical shooting experiments, impact-point records, high-speed video capture, arrow recognition, target localization, and straightness analysis.

Jan 2026 **4D Cardiac Segmentation and Medical Image Analysis**

4D cardiac MRI/ultrasound segmentation research support.

- Ran data/model workflows, consolidated local-validation results, prepared technical figures, and supported method/architecture documentation.

2026 planning stage **FYP MapAgent Plan**

BLE/RSSI indoor asset tracking with LLM-assisted diagnosis.

- Designed a system plan around BLE/RSSI, floorplan/RSG, anomaly diagnosis, and operator-facing explanation.

Experience

Jan 2025 – Feb 2025 **Finance Department Intern**, Guangzhou Bank

- Organized lending/borrowing ledgers and supported reporting materials and data checks.

Aug 2024 – Dec 2024 **Administrative Assistant**, BNBU

- Handled enquiry calls, documentation, and office operations.

Campus Leadership

2025 – 2026 **Deputy Minister, Rights and Services Department**, BNBU Student Union

- Supported student rights services, feedback organization, activity execution, and cross-student communication.

2024 – 2025 **Organization Committee Member**, Youth League Branch

- Assisted branch organization, announcements, coordination, and activity execution.

2024 – 2025 **Co-founder**, BNBU Volleyball Club

- Helped initiate the club from 0 to 1, supporting recruitment, training organization, and community operations.

Honors and Awards

- MCM/ICM Meritorious Winner, 2025.
- ICBC Cup Business Competition, Excellence Award.
- BNBU Student Leadership Path Programme, Bronze Award of Servant Leadership, 2025–26 Academic Year / May 2026.

Skills

Programming and Data: Python, Java, C, SQL, machine learning, computer vision, data cleaning, evaluation pipelines, GitHub, LaTeX.

AI-assisted Research and Development: Codex, ChatGPT Pro, Claude, Gemini for agentic coding, data analysis, research writing, report generation, and website prototyping.

Languages: English CET–4, CET–6; bilingual technical reading and writing.
