RESEARCH & PROJECTS

Competition Arrow Performance Evaluation & Intelligent Selection

June 2025 – present

| Olympic Key Research Program (China Institute of Sport Science-led; BNBU Digital Sports Research Center)

- Worked on evaluation workflow under the Olympic key project "Smart arrow selection equipment and system R&D" for LA 2028 preparation; learned end-to-end lab operations (experiment scheduling, data management, equipment handling) and routine group meetings.
- Operated the archery shooting setup and executed thousands of controlled shots; captured arrow release states using a high-speed camera and performed video trimming/editing for analysis.
- Extracted kinematic factors (e.g., release angle and velocity) and linked them to impact scores to study arrow quality and performance drivers.
- Studied arrow straightness by filming rotational motion; applied filtering-based analysis and computer-vision trajectory tracking to quantify straightness; wrote a LaTeX report in paper format.

Flood Forecasting & Hydrological Modelling

Sept 2025 – present

| UIC - Sun Yat-sen University - Huawei collaboration

- Processed raw remote-sensing imagery for modelling (alignment, quality control, dataset structuring).
- Built a machine-learning pipeline to predict station discharge from spatiotemporal features; implemented time-based evaluation to assess generalization.
- Contributed to the land-surface runoff component and integrated data + ML outputs for flood forecasting experiments.

EDUCATION

Beijing Normal University - Hong Kong Baptist University (BNBU), Computer Science and Technology

Sept 2023 – present

- Cumulative GPA: 3.25/4.00 (107/148 units completed, as of Mar 2026)
- Selected coursework (grade): DSA (B+), Algorithms (B+), OS (B+), DBMS (B+), Machine Learning (B+), Neural Nets & Deep Learning (B+).
- Currently taking: Software Engineering; Advanced Software Development Workshop; Discrete Structures; Deep Learning for CV; 3D Computer Vision.

EXPERIENCE

Guangzhou Bank, Finance Department Intern

Jan 2025 – Feb 2025

- Organized lending/borrowing ledgers; supported reporting and slide preparation for internal reviews.

Beijing Normal University - Hong Kong Baptist University (BNBU), Administrative Assistant

Aug 2024 – Dec 2024

- Handled enquiry calls and routed requests; assisted administrative documentation and office operations.

HONORS & AWARDS

- Mathematical Contest in Modeling (MCM/ICM), Meritorious Winner, Oct 2025.
- ICBC Cup Business Competition, Excellence Award.

SKILLS & LANGUAGES

Programming: Python, Java, C, SQL (coursework).

Tools: GitHub, LaTeX, AI tools, MS Office.

English: CET-4, CET-6.
