

Zhengyang Wang (Alvin) / ■■■■

Undergraduate Researcher in Computer Science, BNBH | Last updated: May 2026

+86 198 4265 1107 | 1658652500@qq.com / t330031281@mail.bnbh.edu.cn | github.com/Yang1107-wzy | wzhenyang.com

Research Interests

- Deep learning, artificial intelligence, computer vision, 3D vision, medical image analysis, multimodal reasoning, remote-sensing ML, sports analytics, and deployable research prototypes.

Education

- Beijing Normal University - Hong Kong Baptist University (BNBU), BSc Computer Science and Technology, Sept 2023 - Present. GPA: 3.25/4.00.
- Selected coursework: Data Structures, Algorithms, Operating Systems, DBMS, Machine Learning, Neural Networks & Deep Learning, Software Engineering, Advanced Software Development Workshop, Discrete Structures, Deep Learning for Computer Vision, 3D Computer Vision.

Publications and Submissions

- Decoupling Morphology and Coherence for High-Fidelity 4D Cardiac Segmentation, NeurIPS 2026 Conference Submission, under review on OpenReview.
- Orchestrating Secrets: Visual Metaphor Generation and Reasoning in Multi-Agent Communication Games, Submitted to ARR, May 2026.

Selected Research and Projects

- Cardiac ultrasound benchmark and ST-CardioSeg, 2026: built a shared CAMUS 4CH local-validation benchmark package, ran data/model workflows, consolidated evidence-traceable metrics, and prepared method/architecture figures.
- MetaVision-DB, 2026: constructed schemas, quota design, validation scripts, data-processing workflows, provenance logs, and staged review assets for multimodal metaphor generation and reasoning games.
- BLE asset tracking FYP, 2026 planning stage: defined a BLE/RSSI indoor tracking plan using floorplan/RSG context and LLM-assisted calibration, anomaly diagnosis, and operator-facing interpretation.
- Competition arrow performance evaluation, June 2025 - Present: participated in controlled shooting experiments, connected kinematic factors with impact points and scores, and supported arrow straightness analysis with vision-based tracking.

Additional Projects

- Flood forecasting and hydrological modelling: processed remote-sensing and hydrological data, built spatiotemporal features, and supported machine-learning prediction/evaluation workflows.
- CGF-Height mobile RGB-D height estimation: contributed to measurement data organization, algorithm improvement, result analysis, and paper writing for mobile height measurement.
- Posture-health innovation competition plan: preliminary-stage entrepreneurship proposal and PPT around motion sensing, posture correction, movement-library matching, and real-time feedback.

Zhengyang Wang (Alvin) / ■■■■

Undergraduate Researcher in Computer Science, BNBU | Last updated: May 2026
+86 198 4265 1107 | 1658652500@qq.com / t330031281@mail.bnbu.edu.cn | github.com/Yang1107-wzy | wzhengyang.com

Experience

- Guangzhou Bank, Finance Department Intern, Jan 2025 - Feb 2025: organized lending/borrowing ledgers and supported internal reporting materials and data checks.
- BNBU, Administrative Assistant, Aug 2024 - Dec 2024: handled enquiry calls, documentation, and office operations.

Campus Leadership

- Deputy Minister, Rights and Services Department, BNBU Student Union, 2025-2026: supported student rights services, feedback organization, activity execution, and cross-student communication.
- Organization Committee Member, Youth League Branch, 2024-2025: assisted branch organization, announcements, coordination, and activity execution.
- Co-founder, BNBU Volleyball Club, 2024-2025: helped initiate the club from 0 to 1, supporting recruitment, training organization, and community operations.

Honors and Awards

- Mathematical Contest in Modeling (MCM/ICM), Meritorious Winner, 2025.
- ICBC Cup Business Competition, Excellence Award.
- BNBU Student Leadership Path Programme, Bronze Award of Servant Leadership, 2025-26 Academic Year / May 2026.

Skills

- Programming and data: Python, Java, C, SQL, machine learning, computer vision, data cleaning, evaluation pipelines, structured dataset curation.
- Tools: LaTeX, GitHub, Office, research visualization, technical writing, simple static website prototyping.
- AI-assisted research and development: experienced with Codex, ChatGPT Pro, Claude, Gemini for agentic coding, data analysis, research writing, report generation, and website prototyping.

Languages

- Chinese: native. English: CET-4, CET-6; able to read research papers and write bilingual technical materials.
